FOR IMMEDIATE RELEASE

CALOPTIMA NAMED TO “BEST PLACES TO WORK” LIST

*Orange County Business Journal Annual List
Ranks CalOptima 15th Among Large Companies
Based on Positive Employee Feedback*

ORANGE, Calif. (September 27, 2011) — The Orange County Business Journal annual “Best Places to Work” list ranks CalOptima as one of the best large companies to work for in Orange County. The ranking is based on survey results from employees at local organizations regarding company policies, culture and benefits, and overall satisfaction.

The CalOptima employees surveyed reported high levels of satisfaction with the agency’s work environment, which includes a telework program, flexible schedules, health and wellness programs, employee appreciation events and family-oriented activities.

“CalOptima strives to provide members in our health care programs with outstanding customer service, and that begins by taking care of employees who deliver the service,” says Richard Chambers, CalOptima CEO. “We honor employees by providing a positive environment and applaud them for the exceptional work they do daily. CalOptima employees make real our mission of providing access to quality health care for vulnerable Orange County residents.”

Operating since 1995, CalOptima has approximately 475 employees. It has been recognized repeatedly for workplace excellence, including once before by the Orange County Business Journal, and by other publications, such as The Orange County Register, OC Metro and Modern Healthcare, a national health care industry magazine.
