Action: On motion of member John Dupies, seconded and carried, the OCC MAC approved the minutes as submitted.

PUBLIC COMMENT

No requests for public comment were received.

PRESENTATION

Vice Chair Gio Corzo recognized retiring Member Jorge Solé for his commitment and contributions to the OneCare Connect Member Advisory Committee (OCC MAC). Member

Solé, who is retiring from the Orange County Social Services Agency (SSA) at the end of March 2017, has been the SSA representative on the OCC MAC since 2015. Member Solé explained that the SSA seat on OCC MAC would remain vacant pending the SSA Executive Team's selection to fill his position.

CEO AND MANAGEMENT TEAM DISCUSSION

Chief Executive Officer (CEO) Update

Michael Schrader, Chief Executive Officer, reported that CalOptima is closely monitoring potential changes to the American Health Care Act (AHCA). Members of the House of Representatives may vote on an amended version of the AHCA, but its passage is not assured. Mr. Schrader noted that if AHCA were enacted in its current form, no changes would occur until 2020. In addition, there are significant changes proposed to the financing mechanisms that control who is eligible for Medicaid and who will finance it. Mr. Schrader explained that AHCA could change federal financing for Medi-Cal Classic members to a per capita model, adding that separate caps would be calculated for people in five different eligibility groups to align payment with expenses, such as paying more for elderly and less for children. California would pay the difference for any spending above the caps. For Medi-Cal Expansion members, California would continue to receive the enhanced federal payment rate until December 31, 2019, after which, a lower payment rate would be enacted. Mr. Schrader noted that CalOptima is actively engaged with our three trade associations to ensure we understand the proposals and provide feedback from Orange County.

Chief Medical Officer (CMO) Update

Richard Bock, M.D., Deputy Chief Medical Officer, reported that the Pharmacy department is upgrading its mainframe system to improve performance on authorizations and enhance CalOptima's ability to provide information in the members' language of choice.

Dr. Bock announced that the Board of Directors approved the Pay for Value program for physician and health network incentives, which are based on quality metrics, the Healthcare Effectiveness Data and Information Set (HEDIS) clinical measures and the Consumer Assessment of Healthcare Providers and Systems (CAHPS) surveys. In addition, CalOptima is developing a Pay for Value program for the CalOptima Community Network (CCN). CCN physicians contract directly with CalOptima instead of the health networks.

Dr. Bock provided a brief update on the opioid epidemic, noting that CalOptima has been hosting physician education lectures in the community regarding the opioid problem.

INFORMATION ITEMS

Committee Member Updates

Vice Chair Corzo announced that one week remains in the recruitment for committee member seats that are expiring on June 30, 2017. The deadline to apply is March 31, 2017. Vice Chair Corzo also announced the need for volunteers to serve as Chair and Vice Chair for next year. The

OCC MAC Nomination Ad Hoc Subcommittee will meet to review the applications to select a slate of candidates for OCC MAC's consideration at the April 27, 2017 meeting. Member Ted Chigaros volunteered to serve on the subcommittee with members Patty Mouton and Lena Berlove.

The Goals & Objectives Ad Hoc Subcommittee, including OCC MAC members Christine Chow, Sara Lee and Erin Ulibarri, met on March 16, 2017 to propose activities for FY 2017-18. OCC MAC members will consider the proposed goals and objectives at April 27, 2017 OCC MAC meeting.

Member Jorge Solé suggested that the Social Services Agency present at a future OCC MAC meeting to report on any impact that the proposed AHCA changes would have on the eligibility of Medi-Cal members.

Assisted Living Waiver

Tracy Hitzeman, Executive Director, Clinical Operations, provided an overview of the Home and Community-Based Services' Assisted Living Waiver (ALW) program. Established in 2007, the main goal of the ALW is to provide assisted living support to eligible Medi-Cal members who are at risk of institutionalization or to eligible Medi-Cal members who are transitioning from long-term care facilities to community home-like settings. Ms. Hitzeman explained that the ALW provides care coordination, assisted living services, nursing facility transition coordination, and environmental accessibility adaptations. She added that OneCare and OneCare Connect members are not eligible for this program.

CBAS and SNF Satisfaction Survey Results

Laura Guest, Supervisor, Quality Improvement, presented the results from the 2016 Community Based Adult Services (CBAS) and skilled nursing facilities (SNF) surveys. Ms. Guest reported that nearly 1,000 CBAS surveys were returned, noting that 100% of the centers had an overall satisfaction rate of over 90%. The main areas of concern included dissatisfaction with the meals, problems with transportation and physical and/or occupational therapy not meeting the members' needs. Ms. Guest reported that the SNF survey results had an overall satisfaction rate of 77%, noting that dissatisfaction with dietary services was the chief issue.

Federal and State Budget and Legislative Update

Phil Tsunoda, Executive Director, Public Affairs, provided information on the process for the proposed AHCA bill. Currently, the House is scheduled to vote on the proposed bill on March 24, 2017. Mr. Tsunoda explained that for the bill to pass the House, 216 votes are required. If it passes in the House, the Senate can fail the bill or impose amendments to the bill and pass the bill with those amendments. The bill would then return to the House for consideration of the amended version.

Vice Chair Corzo announced that the next OneCare Connect MAC meeting is April 27, 2017 at 3:00 p.m.

ADJOURNMENT

Hearing no further business, Vice Chair Corzo adjourned the meeting at 4:05 p.m.

OneCare Connect Cal MediConnect Plan (Medicare-Medicaid Plan)

**OneCare Connect Member Advisory Committee
FY 2016-2017 Accomplishments**

During FY 2016-2017, the OneCare Connect Member Advisory Committee (OCC MAC) of the CalOptima Board of Directors provided input to ensure that OneCare Connect members receive quality health care services. The following list highlights the accomplishments:

- A member of the OCC MAC participated on the request for proposal (RFP) committee that reviewed and selected Magellan Health, Inc. as CalOptima's managed behavioral health organization.
- The OCC MAC Member, who also serves as the Cal MediConnect Ombudsman, provided quarterly updates and feedback from the community regarding the OneCare Connect program.
- OCC MAC members recommended the addition of a Vice Chair position at its September 22, 2016 OCC MAC meeting to assist the Board-appointed OCC MAC Chair, ensuring smooth and streamlined committee administration. The Board approved the Vice Chair position at the October 6, 2016 meeting.
- OCC MAC members reviewed CalOptima's draft Strategic Plan for 2017-2019 and supported the Board of Directors' approval of the updated plan. The new strategic priorities include innovation, value, and partnerships and engagement.
- An OCC MAC Nomination Ad Hoc Subcommittee convened to select the proposed slate of candidates, Chair and Vice Chair for the positions expiring on June 30, 2017. The OCC MAC reviewed the proposed candidates at its April 27, 2017 meeting and forwarded their recommendations to the Board for consideration and approval at the June 1, 2017 meeting.
- An OCC MAC Goals and Objectives Ad Hoc Subcommittee convened to develop goals and objectives for FY 2017-18. Based on the Board-approved Strategic Plan, OCC MAC approved the FY 2017-18 OCC MAC Goals and Objectives on April 27, 2017 and submitted them to the Board as an informational item on June 1, 2017.
- OCC MAC members provided input on CalOptima's strategies to maximize enrollment, retention, and member outreach efforts to OneCare Connect members.

- An OCC MAC member volunteers to present an overview at each OCC MAC meeting on the agency or organization they represent.
- Several OCC MAC members attended CalOptima sponsored community education events, including Community Alliance Forums and Awareness and Education Seminars.
- All OCC MAC members completed the annual Compliance Training.
- OCC MAC Chair presented a monthly OCC MAC Report at CalOptima Board of Directors' meetings to provide the Board with input and updates on the OCC MAC's activities.
- OCC MAC members contributed at least 260 "official" hours to CalOptima during FY 2016-17, including OCC MAC meetings, ad hoc meetings, and Board meetings. These hours do not account for the innumerable hours that OCC MAC members dedicate to members on a day-to-day basis.

The OCC MAC thanks the CalOptima Board for the opportunity to provide updates on the OCC MAC's activities. The OCC MAC welcomes direction or assignment from the Board on any issues or items requiring study, research, and input.

MEMORANDUM

DATE: May 4, 2017
TO: CalOptima Board of Directors
FROM: Michael Schrader, CEO
SUBJECT: CEO Report
COPY: Suzanne Turf, Clerk of the Board; Member Advisory Committee; Provider Advisory Committee; OneCare Connect Member Advisory Committee

American Health Care Act (AHCA)

On April 25, Congress reconvened after the two-week spring recess, with passing a Continuing Resolution as the priority to avoid a government shutdown. Alongside this effort, negotiations on the AHCA continued. As of April 26, the conservative House Freedom Caucus expressed support for a proposed amendment to AHCA by the moderate Tuesday Group's co-chairman Rep. Tom MacArthur (R-N.J.) The MacArthur amendment would not change AHCA provisions that significantly impact CalOptima related to Medicaid financing, such as the move to per capita rates or the provisions affecting Medicaid Expansion, but it would provide compromises in other areas so as to generate more support across Congress. Developments on AHCA are happening daily, and our associations and federal advocate are tracking the legislation to ensure CalOptima has the latest information available.

Medicaid Mega Reg

In April 2016 under the Obama Administration, the Centers for Medicare & Medicaid Services (CMS) issued a final regulation that significantly revises Medicaid managed care rules. Due to its comprehensive nature, the regulation became known as the Mega Reg. As a whole, the Mega Reg aims to standardize the administration of Medicaid across the states. However, the new Administration has indicated that it favors flexibility for states as opposed to wide-ranging regulations imposed by the federal government. As a result, CalOptima has learned through our associations that the Mega Reg may be delayed or even reworked. Yet since the first major provisions go into effect July 1, 2017, we are obligated to operate as if it will be implemented as planned. At the state level, on the legislative front, Assembly Bill 205 (Wood)/Senate Bill 171 (Hernandez) have been introduced to direct certain aspects of Mega Reg implementation. Two of the bills' provisions have the potential to affect CalOptima's payments to hospital partners. Under consideration are changing the administration of the Quality Assurance Fee and having the Department of Health Care Services (DHCS) set annual percentage increases in payment rates for public hospitals, including University of California medical centers. We are expecting a contract amendment from DHCS to implement provisions of the Mega Reg. Separately, on the regulatory front, DHCS is working on new requirements and administrative processes for Rate Range Intergovernmental Transfers (IGTs). The Mega Reg will allow IGTs to continue, but requires that the transactions be prospective. At this point, our understanding is that IGTs may need to be arranged before the beginning of the fiscal year to which they apply. We will continue

to work with DHCS and our associations as Mega Reg implementation moves forward and additional details become available.

Program of All-Inclusive Care for the Elderly (PACE)

- **Nurse Practitioner Waiver**

On March 30, CMS approved our nurse practitioner waiver application submitted in December 2016. This flexibility expands the nurse practitioner's scope of practice within the on-site PACE clinic and allows the nurse practitioner to complete initial assessments and reassessments, which will be recognized by CMS. CalOptima is working to finalize the policies in order to move forward with implementation.

- **Health and Wellness Event**

On March 25, PACE hosted a Senior Health and Wellness Event, drawing more than 50 seniors and their families/caregivers. Attendees received a tour of the center, met key program staff and learned more about how CalOptima PACE can help them continue living independently.

Children's Health Insurance Program (CHIP) Reauthorization

CHIP covers children in families living at up to 250 percent of the Federal Poverty Level under Medi-Cal. CHIP is due for reauthorization on October 1, 2017. DHCS Director Jennifer Kent stated that California is planning for a decrease in the federal funding level for this program. Currently, the federal/state match rate is 88/12, and it is expected to change to 65/35 starting in October. The draft FY 2017–18 state budget includes provisions for this higher outlay. No changes in eligibility have been proposed.

Medicare Star Rating

On April 3, CMS released final 2018 updates to the Medicare Advantage and Part D Prescription Drug Programs, affecting OneCare Connect, OneCare and PACE. One area of concern for CalOptima has been the way CMS develops its Star rating system. The current Star system fails to adequately account for socioeconomic and disability status, producing a structural and financial disadvantage for plans such as CalOptima that exclusively serve dual-eligible beneficiaries. CalOptima's position is that CMS should develop a solution that accurately measures and compares the quality of care for plans that disproportionately serve dual-eligible beneficiaries. CalOptima worked with the Association for Community Affiliated Plans (ACAP) on a recent letter to CMS that expressed appreciation for CMS' implementation of the Categorical Adjustment Index for 2017 as an interim fix. The letter also encouraged CMS to consider an Office of the Assistant Secretary for Planning and Evaluation (ASPE) report found that dual-eligible status is a significant predictor of poor Star ratings. CMS appears to have taken note, stating in its 2018 materials that it is "carefully considering" recommendations from the ASPE report for Star ratings in the future. CalOptima will continue to work with ACAP and CMS to advocate for a long-term solution.

Opioid Opinion Article

To raise awareness and extend our work on combating the opioid epidemic, CalOptima submitted an opinion article by Deputy Medical Director Richard Bock, M.D., to the Orange County Register. The piece ran April 21 in print and online. View the article [here](#).

Key Meetings

- **California Children's Services (CCS) Advisory Group Meeting**

On April 12, I attended the quarterly CCS Advisory Group Meeting, which addresses the transition of CCS to the Whole Child Model (WCM). Of note was a new discussion about the possibility of carving in neonatal intensive care unit (NICU) services to the health plans, whereas NICU was previously to continue being carved out and administered by the counties and state. Care coordination, which is one goal of WCM, could potentially be easier if plans were overseeing NICU services as well. Currently, the counties/state authorize and pay for some NICU days, and the plans pay for other days. A NICU Technical Workgroup has formed to discuss eligibility, authorization and payment issues. Ultimately, the group suggested that the decision on NICU could be left up to the various counties implementing WCM. I will keep your Board informed about impact to CalOptima and Orange County.

- **Kaiser Permanente**

On April 14, I participated in a meeting between executives from Southern California public health plans and Julie Miller-Phipps, new president of Kaiser Foundation Hospitals and Health Plan, and her executive team. The health plans represented included CalOptima, L.A. Care, Inland Empire Health Plan and Kern Health Systems. Ms. Miller-Phipps oversees the Southern California region, with 14 hospitals and 241 medical offices, serving 4.2 million Kaiser members.

- **Orange County Leadership Forum on Aging**

Held April 21, the Forum on Aging featured opening remarks by Supervisor Do and included me on a panel with four other speakers. Sponsored by the Orange County Aging Services Collaborative, the event drew a large crowd of more than 300 attendees and focused on the latest news and trends in aging policy. I spoke about the potential impacts to Medi-Cal if the ACA is changed and about our continuum of programs for seniors.

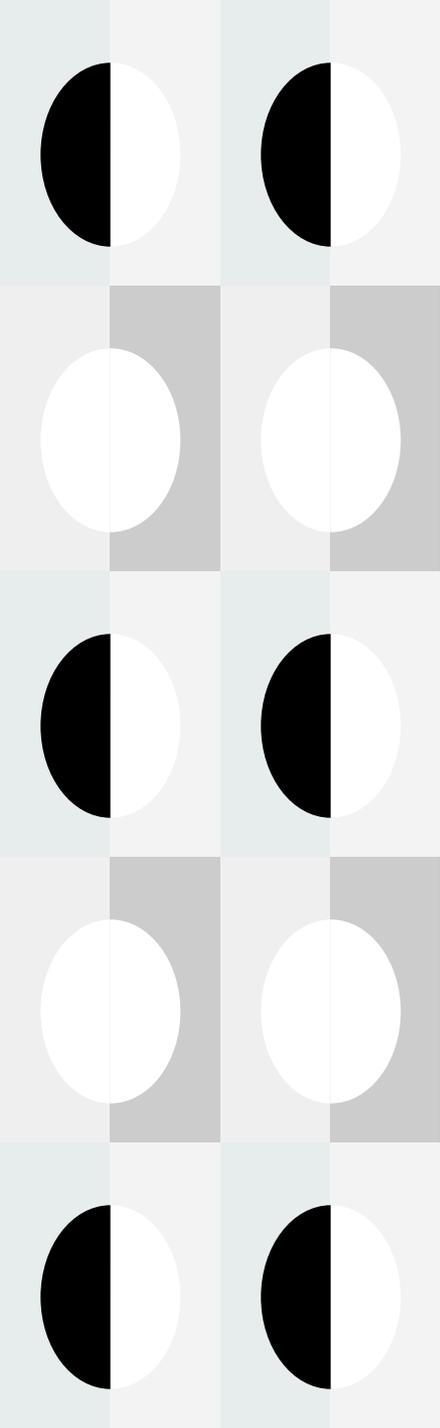

- **Medicaid Health Plans of America Board Meeting**

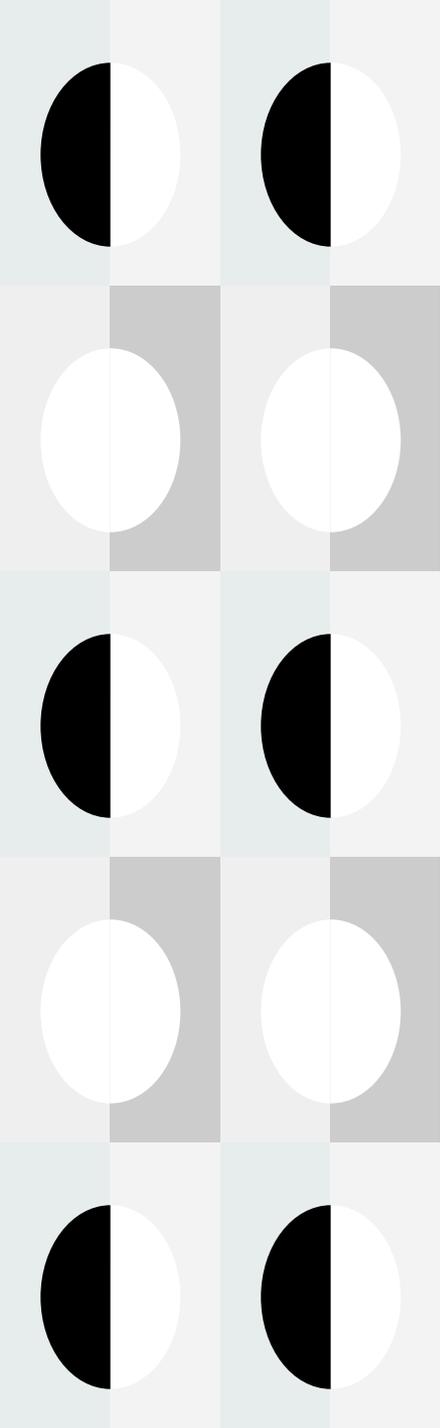

On April 28, CalOptima was pleased to host in our offices the Medicaid Health Plans of America Board of Directors meeting, welcoming CEOs from commercial and public health plans across the nation. As you know, CalOptima joined the association this year to ensure our agency was well connected to the latest information available about national health policy. The productive meeting addressed key topics including Medicaid reform, the per capital cap model proposed in the AHCA and managed long-term services and supports.

 - Consumers did not timely submit the requested information to complete the redetermination process.

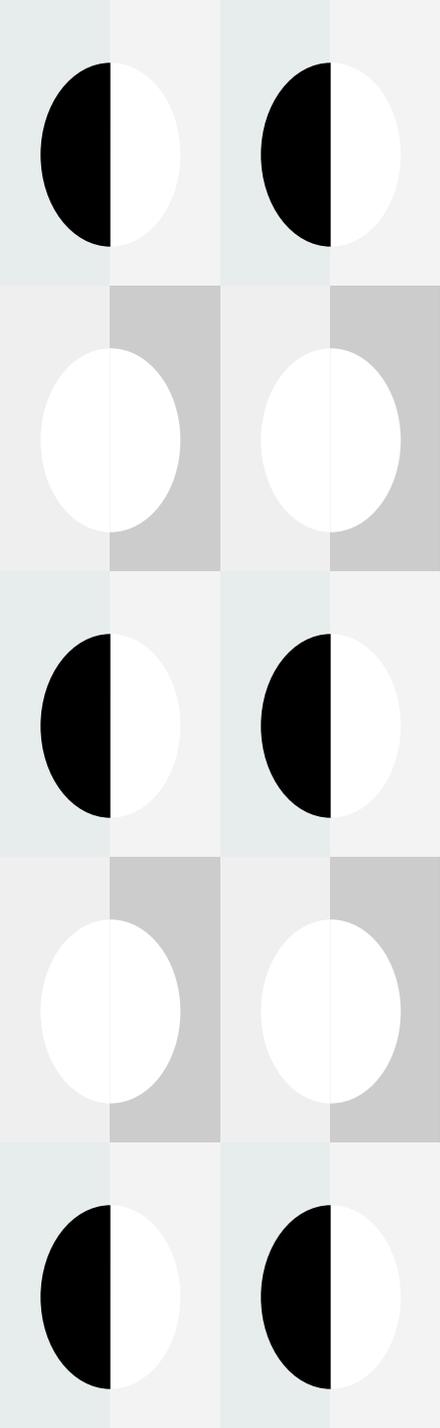

Questions/OCC Issues

- *Coordination of VA with OCC:* How can consumer best utilize the services under both coverage. How does the coordination work?
- *OC consumers who were not cross walked to OCC:* Why are they still enrolled in OC and not transitioned to OCC?
- *Aid code Issue:* Consumer in LTC met SOC but was dropped from OCC due to the wrong aid code (aid code should be for LTC) per CalOptima but it does not make sense since she was in the same aid code in the past and was still enrolled in OCC. It may be due to the fact that a SOC was erroneously reflected in the system although she met her SOC.

Questions/OCC Issues - Continued

- *Confusion about Dental Benefits:* Regarding out of pocket costs for consumers . The Welcome Letter with explanation of covered benefits state that, for certain services with upgrades, consumers will pay a lab costs.
- *Consumer without coverage due to possible system glitch:* AEVS shows consumer with OCC but per CalOptima he is not with OCC . He can't access benefits under OCC or Medi-Cal. LASOC needs to address with DHCS. As a result, consumer can't access transportation service for dialysis.

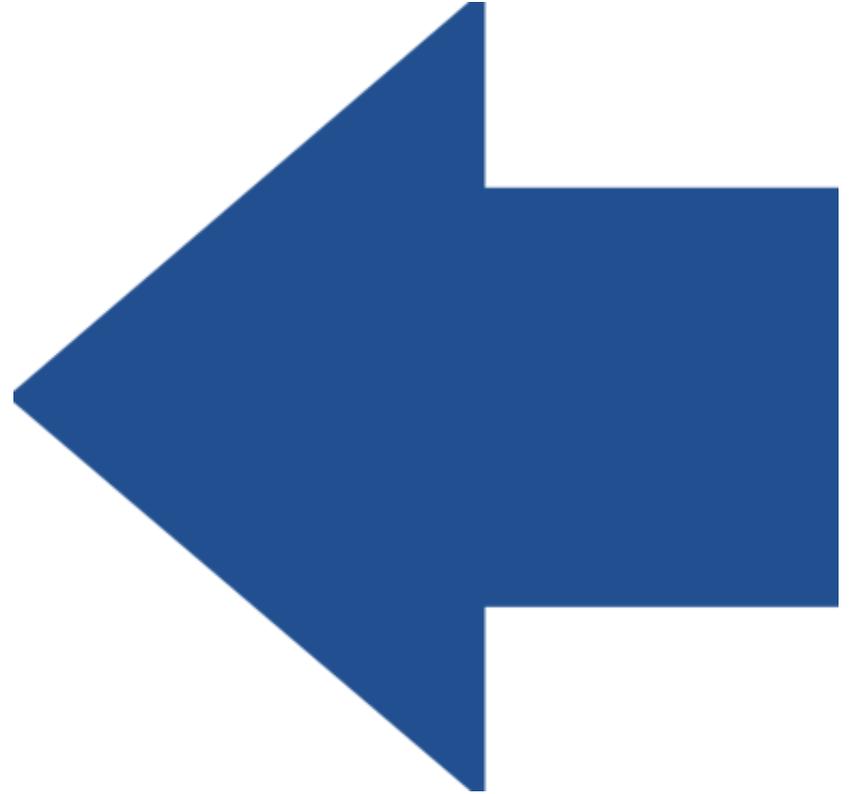

Per Dialysis Center Staff:

- Dialysis patients can't receive timely authorization under OCC to treat the blocked vein which is their lifeline, as a result their dialysis patients opt out of OCC since they are able to quickly see providers to treat the issue under Medicare fee for service.

Outreach Education

-LASOC continues to outreach and educate dual eligible consumers, including OCC consumers on OCC plan, its benefits, illegal balance billing, the importance of complying with the renewal process or resolving their Medi-Cal eligibility issue to retain OCC enrollment during the deeming period, and that Medi-Cal termination can cause disruption in services, and deduction of Medicare premium payment from their Social Security check.

-LASOC also educates beneficiaries on their rights and LASOC's role as the Ombudsman to assist with their issues.
