

Drug Recalls and Withdrawals

CalOptima's Pharmacy department informs members, prescribers and pharmacies when there is a Class I or Class II medication recall. We inform our members in writing when a medication is removed from the market.

CalOptima reviews drug recalls and withdrawals every 3 months. The review takes place in a meeting with the Pharmacy and Therapeutics (P&T) Committee. You can find details on drug recalls and withdrawals on CalOptima's website at <https://www.caloptima.org/en/Members/Medi-Cal.aspx>. It is revised every 3 months. Please talk with your doctor about any details on drug recalls and withdrawals that may affect you.

Drug Recalls and Withdrawals for Fourth Quarter 2015 Addressed at the February 2016 P&T Meeting

Update on Class I and Class II Recalls

- Class I Recalls: There are no recalls at this time.
- Class II Recalls: There are no recalls at this time.

Update on Other Recalls and Withdrawals

- Urgent voluntary recall of Auvi-Q 0.15mg/0.15mL and Auvi-Q 0.3mg/.3mL auto injector. The company that makes this medication chose to remove it from the market. The recall took place because of the possibility of inaccurate dosage delivery.
