

## Processing Authorization Modification/Change Requests from Providers Process beginning May 1

Judy Riley Prior Authorization Manager

#### Request to Modify/Change Authorization

 Due to findings in the recent Department of Health Care Services (DHCS) audit, and to maintain compliance, CalOptima has changed its internal process for modifications to meet regulatory requirements for prior authorizations

## **Open Authorizations With no Decision**

- A provider may call 714-246-8686 to request a modification to an authorization request that has not yet received a decision (usually within five business days of submitting the request)
- Request will be reviewed per standard protocol and timeline

### Request to Change a Closed Authorization

- If a provider has already received a decision on an authorization request and needs to change either the specific type of service or send to an alternate provider:
  - An authorization request will need to be submitted (via fax or portal). The request must include the reason for the request/modification and the original authorization number.
- CalOptima encourages providers to submit the request via the online portal. Requests submitted via the portal have the potential for quicker responses, meeting auto-authorization rules and being automatically approved.

# Turnaround Time (TAT)

- Requests submitted urgently will be reviewed and a decision made within 72 hours of receipt of the request
- Routine requests will be reviewed and a decision made within five days of receipt of information necessary to make a decision, but no later than 14 calendar days from receipt of the request

## New authorization request form

- A new authorization request form will soon be uploaded to the caloptima.org website
- The additional note and checkbox at the bottom of the form is to assist with directing the member to the appropriate provider for the service
- This also allows the member to be directed to a community provider, which will result in the referral being processed faster and the member being seen in a timely manner
